Game Details

OmniVerse is a 2-player card battler game based on popular fictional characters. **OmniVerse – Chapter 1: Justice League vs. The Avengers** lets the player take part in an interdimensional clash between their favorite iconic heroes and villains from the **Justice League** and **the Avengers**.

Each game session can take around 30 – 45 minutes.

Theme Introduction

While travelling through various universes, the fastest man alive, the Flash, stumbles upon a startling revelation. In all the hundreds of universes he has encountered, he realizes that the Earth from which he originates from is the most unique universe unlike others. In some universes, the Justice League is the sole organization that keeps the peace. Some universes rely on the might of the Avengers to keep the peace. The Seven and Vought Industries safeguard certain universes while Mortal Kombat tournaments maintain harmony among realms in some universes. But on Flash's Earth; All these elements coexist side by side. Maddened by this reality, he seeks counsel with Doctor Fate and the Justice League.

Together, using arcane magic and advanced technology, the Justice League track the cosmic anomaly signature to the Scarlet Witch and conclude that she is somehow connected to this phenomenon. Seeking answers Wonder Woman tries to confront the Scarlet Witch, only to be restrained by Thor as Scarlet Witch is a protected member of the Avengers. Meanwhile, Batman's detective instincts lead him to a surprising revelation – Doctor Strange was aware of this unique convergence all along. The tension between the two mighty factions begin to escalate and the Justice League demands answers from the Avengers, pushing Doctor Strange to reveal the undeniable truth.

Strange reveals that their universe, which he named Earth-OV, occupies the central point of the multiverse – a focal point where all major entities and events from other universes are manifesting and some have already manifested. He admits that Scarlet Witch's involvement seems to be the key to understanding this perplexing phenomenon and that is why he is tutoring her in the arcane ways. However, the Justice League demand her to be imprisoned before she causes more interdimensional harm as Doctor Fate has seen the future in which Scarlet Witch destroys all universes.

Due to this conflict and Doctor Strange keeping secrets from the Justice League, tensions escalate. The clash between the Justice League and the Avengers becomes inevitable.

Choose a side.

Shape the outcome of the conflict.

Decide the ultimate destiny of the Omniverse.

OmniVerse – Chapter 1: Justice League vs. The Avengers.

Game Structure and Flow

1. The 2-player game begins with each player choosing either **Justice League** or **The Avengers**. After choosing, each player must take the **15 Fighter Cards** of their chosen universe.
2. Each player must shuffle their **15 Fighter Cards** and draw 6 random **Fighter Cards** to their hand and keep the remaining 9 cards in the **Deck Slot** on the game board face-down.
3. All **30 Location Cards** must be shuffled together and kept face-down on the **Location Cards Slot** on the Game Board.

Turn & Round Structure

1. Each round begins with drawing a **Location Card** and keeping it face up on the **Current Location Slot** on the Game Board. The **Special Effect** of that Location Card is activated.
2. Then the players are free to choose one **Fighter Card** and place it face down on the **Current Fighter Slot** on the Game Board.
3. After both players place **1 Fighter Card** face down, both cards must be turned face up together. **Bonus Effect** of the **Fighter Card** is activated if the specific **Fighter Card** of the Location is played.
4. The **Fighter Card** with the highest **SPEED** takes the first turn. The effect of the **Special Ability** of that **Fighter Card** is activated. After considering the effect, if the **ATTACK** of the **Fighter Card** is higher than the opposing **Fighter Card's DEFENSE**, the opposing **Fighter Card** is defeated and placed the **Defeated Slot** on the Game Board. If the opposing **Fighter Card** is not defeated, the turn is shifted to the opponent and follows the same steps. (**SPEED** -> **Special Ability** -> **ATTACK** -> **DEFENSE**)
5. While defeated cards are moved to the **Defeated Slot**, the cards that have not been defeated are moved to the **Rest State 1 Slot** and undefeated **TITAN Cards** are moved to the **Rest State 2 Slot**. This marks the end of a round. Cards previously in **Rest State 2 Slot** are moved to **Rest State 1 Slot** and cards previously in **Rest State 1 Slot** and returned to the player's hand.
6. If a Player has 4 Cards in their **Defeated Deck Slot**, that Player can draw a **Fighter Card** from Deck. This can be done only once in a game session.
7. Repeat from Step 1 until a Player has 5 cards in their **Defeated Deck Slot**.

NOTE: While this is the regular gameplay flow, the **Special Abilities** of **Fighter Cards** and **Special Effects** of **Location Cards** bring variety to each turn. For Example, the card with the highest **SPEED** may not always get the first turn as there are **Fighter Cards** and **Location Cards** that have **Special Abilities** and **Special Effects** to change this.

Win & Lose Condition

WIN: Make the opposing player have 5 cards in their Defeated Deck Slot.

LOSE: Have 5 cards in Defeated Deck Slot.
